

THE MOST ECONOMICAL UFO SOLAR GARDEN LIGHT

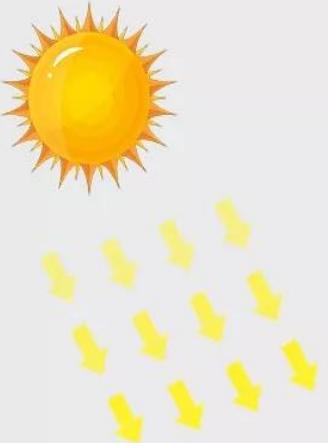

Detachable Save volume Save on shipping

High Efficient Solar Panels

Automatic charging during the day

Charging time: 4-6H

Automatic light on at night

RADAR SENSOR

When someone comes, the lights are on,
after people go, the lights are dimly lit

20% brightness	100% brightness	20% brightness
Not entered	Enter	Leave

IP65 Waterproof

Outdoor waterproof, fearless wind and rain

Waterproof

Windproof

Product advantages

solar street light

>>

// SOLAR //

◀ 01

ABS shell

The shell is made of ABS plastic, detachable, saving transportation volume

02 ►

Radar sensor

Intelligent light control system and human body induction system

◀ 03

Led chip

Using low-power and high-efficiency led chips, high brightness

04 ►

Solar panel

Polycrystalline silicon solar panel, high photo-electric conversion rate

◀ 05

LiFePO4 battery

Large-capacity lithium iron phosphate battery, long life

REMOTE CONTROL MANUAL

- ① Sensing mode: when people come, the lights will be on 100% and when people walk away, the lights will be on 20%.
- ② 2H+SEN: Provides constant light for 2 hours, then switch to sensing mode.
- ③ 3H+SEN: Provides constant light for 3 hours, then switch to sensing mode

Product parameters

solar street light

// SOLAR //

Model:R-600

Solar panel	polysilicon 6V22W
Solar panel size	364*417mm
Lamp size	550*550*60mm
LED	SMD5730 612PCS
Battery	LiFePO4 3.2V 20000mAh
IP Rating	IP65
Material	ABS engineering plastic
Lighting time	12-14h
Charging time	4-6h
Working Temperature	-25° to 60°
Installation height	5-6m
Advantages	large light-emitting surface, wide irradiation area
Working mode	Light control + Remote control + Radar sensing
